

Operating Instructions

Ironmaster Quick-Lock Ultimate Training Vest

Congratulations on your purchase of this fine Ironmaster product. Be sure to read and understand the operating instructions to achieve the best performance and avoid injury.

Loading weights:

Each of the four pockets can hold up to four 5 lb weight plates. 80 lbs total weight capacity/limit. Do not attempt to load more than this.

There are two compartments in each pocket that can hold up to two 5 lb plates each. To fit two plates in a compartment it is much easier to stack the plates together BEFORE inserting into the pocket.

You can use any combination of 5 lb or 2.5 lb plates in the pockets, however we recommend loading the front and back - left and right sides equally for a balanced fit.

Using the Straps:

The main lower straps must always be used. The upper strap is optional and intended for use in more dynamic exercising to hold the vest more securely to the body.

The main lower straps are made in two parts so you can adjust the length and location in the front and back. Depending on your body size you may need to overlap the strap ends. It is recommended to set the straps on the back of the vest first, then put on the empty vest and find where the best front location is for the Velcro. Adjust the back Velcro locations if needed. Then to put on the vest, leave the straps attached on the back and lift it carefully over your head and pull the straps around to the front and secure.

The upper straps are also made in two parts and must attach to each other in the back and front. We recommend locating this smaller strap under each of the pocket straps so it doesn't move as shown above.

ALWAYS secure the Velcro strap down over the plate pockets before use.

This weight vest is intended only for use with the Ironmaster Quick-Lock Dumbbell weight plates.

For further details and information please visit our website at www.ironmaster.com.

Tips and care:

If you have someone to assist, they can help load the plates in the pockets while you are wearing the vest. This is the safest way to don the vest.

Use extreme care when lifting a heavy loaded vest over head to avoid injury. Ideally have a partner assist you.

You may want to wash the vest periodically with heavy sweating. Hand wash only with mild detergent or soapy water and hang dry. Do not wash or dry in a machine.

Do not leave your Quick-Lock plates in a wet or sweaty vest. Be sure to unload when your workout is complete and wipe down the plates to help avoid salty sweat causing any corrosion.

Check to be sure the Velcro is kept clean so it holds securely.

We recommend starting at a low weight when you begin training and working your way up over time. Added weight can be more challenging than you imagine for certain exercises. Don't over do it.

If you find there is any part of the vest that is coming apart or not operating correctly, discontinue use immediately and contact Ironmaster Customer service or support.

Warranty Information:

Ironmaster warrants to the original purchaser that this Home Fitness Product will be free from defects in workmanship and materials for a specific period from date of purchase based on the part type listed below. During the warranty period, Ironmaster will either repair or replace, at its option, defective part(s) at no charge. Warranty covers in home use only.

1 year for normal wear items such as rubber, stitched, upholstered parts and surface finishes.

10 years for frame and structural components.

Shipping costs are not included in the warranty and some items may need to be sent to Ironmaster for repair or replacement. Installation of any parts and labor involved is not included. The warranties described above shall be the sole and exclusive remedy available to the purchaser. Correction of defects, in the manner and for the period of time described above, shall constitute complete fulfillment of all liabilities and responsibilities of Ironmaster to the purchaser with respect to the product, and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise. In no event shall Ironmaster be liable or in any other way responsible for damages or defects in the product which were caused by repairs or attempted repairs performed by anyone other than Ironmaster or Authorized service Contractor. This warranty shall not apply if the defect was caused by misuse, neglect or normal wear and tear of the product purchased. Nor shall Ironmaster be liable or in any way responsible for any incidental or consequential economic or property damage. Some states do not allow the exclusion of incidental or consequential damage, so the above exclusion may not apply to you.
